Summary

Results-driven Master of Computer Applications (MCA) student and aspiring **Software Developer & Cloud Engineer** with a strong foundation in Python, Java, web development, cloud computing concepts, and Natural Language Processing (NLP). Proven track record in building scalable full-stack applications, implementing secure Application Programming Interface (API) integrations, and designing robust algorithmic workflows. Eager to deliver high-performance software and cloud solutions in a dynamic engineering environment.

Skills

- **Programming Languages:** Java, Python, PHP
- **Web Technologies:** HTML5, CSS3, JavaScript, React, Bootstrap
- **Databases & Tools:** MySQL, Git, GitHub, VS Code, Android Studio, OpenStreetMap API
- **Cloud & AI:** Cloud Computing (NPTEL Certified), Natural Language Processing (NLP)
- **Core Concepts:** Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Database Management System (DBMS), Operating Systems, Computer Networks

Education

Master of Computer Applications (MCA) — Poornaprajna Institute of Management, Udupi
2025 – 2027 | Cumulative Grade Point Average (CGPA): 9.02/10

Bachelor of Computer Applications (BCA) — Bhandarkars' Arts & Science College, Kundapura
2022 – 2025 | CGPA: 8.95/10

Projects

Microfinance Loan Approval & Risk-Based Management System | PHP, MySQL, JavaScript, CSS, OpenStreetMap API, Razorpay
Dec 2025 – Feb 2026

- **Objective & Work:** Built a full-stack web application to automate end-to-end microfinance loan lifecycles, incorporating geo-based branch assignment using OpenStreetMap API and Structured Query Language (SQL) Haversine formula calculations.
- **Outcome:** Streamlined processing by automating Equated Monthly Installment (EMI) calculations, risk scoring algorithms, multi-level Loan Officer/Manager approval workflows, One-Time Password (OTP) verification, Razorpay test payment integration, and dynamic Portable Document Format (PDF) document generation.

ForkRoute – Smart Restaurant Management System | Java, Android Studio, Firebase, Razorpay
May 2026 – Aug 2026

- **Objective & Work:** Developed an Android mobile application for table reservations, QR code check-ins, live order tracking, and role-based access management (Customer, Admin, Kitchen) leveraging Firebase and Razorpay.
- **Outcome:** Enhanced operational efficiency through real-time order tracking and built a data analytics module featuring Key Performance Indicators (KPIs), interactive visual charts, and automated PDF/CSV (Comma-Separated Values) data exports.

Certifications, Achievements & Additional Info

- **Certifications:** Cloud Computing — National Programme on Technology Enhanced Learning (NPTEL), 2026
- **Rajya Puraskar Awardee:** Awarded state-level recognition by The Bharat Scouts & Guides for leadership, community service, and skill development (Jun 2019).
- **Languages:** English, Kannada, Telugu, Hindi
- **Location:** Byndoor, Karnataka, India
